

# Small Engines

Small Engines is a CDE that focuses on the Ag Mech area of agriculture. It is a partner competition.

The competition includes:

Written test

Tools and parts ID

Assembly of engine

Small Engines is the perfect competition for those who want to learn about mechanics and the role they play in modern day agriculture.

NorthWood FFA encourages many Small Engines participants to present an Ag Mech Demo at our District Leadership Convention!

Official dress is not required for District and State contests.
